

The Jodi Project

Volume 1, No. 7

presented by

Thomas E. Young, MD

YOUNG
Medical Spa

Jodi's face, neck and décolleté areas were treated with an IPL Photo Facial and a Melanage Melasma Mask to eliminate small broken blood vessels and lighten brown spots. The Melanage Mask and IPL Photo Facials can reduce, if not completely remove, many skin discolorations.

Because Jodi has freckling over the majority of her body, making the brown spots go away completely in these areas just wouldn't look natural. Now Jodi's face, neck and décolleté are more even-toned and blend in gradually with the rest of her body.
